

[Date]

Dear [HR contact name],

[Write a brief intro note about any prior discussions you've had with your employer about coverage. You can also use this space to acknowledge a way your employer has helped you recently.]

I wanted to take some time to explain why covering [medicine name(s)] is so important to me. [This was/These were] prescribed by [my doctor/my loved one's doctor] to help treat cystic fibrosis (CF).

CF is a progressive, genetic disease that affects the lungs, digestive system, and other parts of the body. It also makes people who live with it more vulnerable to getting sick. While there is no cure for CF, [medicine name(s) is/are] important for helping manage the disease. [Consider including a description of your medicine(s). You may want to ask your healthcare provider or care team for help writing this section.]

Taking all the treatments [my doctor/my loved one's doctor] prescribed helps [me/my loved one] stay as healthy as [I/they] can. [Consider including a list of the things that you are/your loved one is able to do more consistently when feeling healthy.]

I appreciate you taking the time to consider this request. If you need more information or would like to talk, you can reach me at [contact information].

Thank you,

[Your name]
